## Metaphors

**Metaphors are comparisons** that show how two things that are not alike in most ways are similar in one important way. Metaphors are a way to describe something. Authors use them to make their writing more interesting or entertaining.

Unlike similes that use the words “as” or “like” to make a comparison, **metaphors state that something is something else.**

*Read the statements that contain metaphors in italics. Then complete the statements that explain the metaphors.*
